10 FAQs

WHO WE ARE

01

At Fire Stoppers, we believe fire safety should be simple, reliable, and stress-free. That's why we created our **One-Stop Shop Package**, giving property managers, business owners, and developers everything they need, all in **one single, efficient visit**.

Trusted by:

Commercial properties.

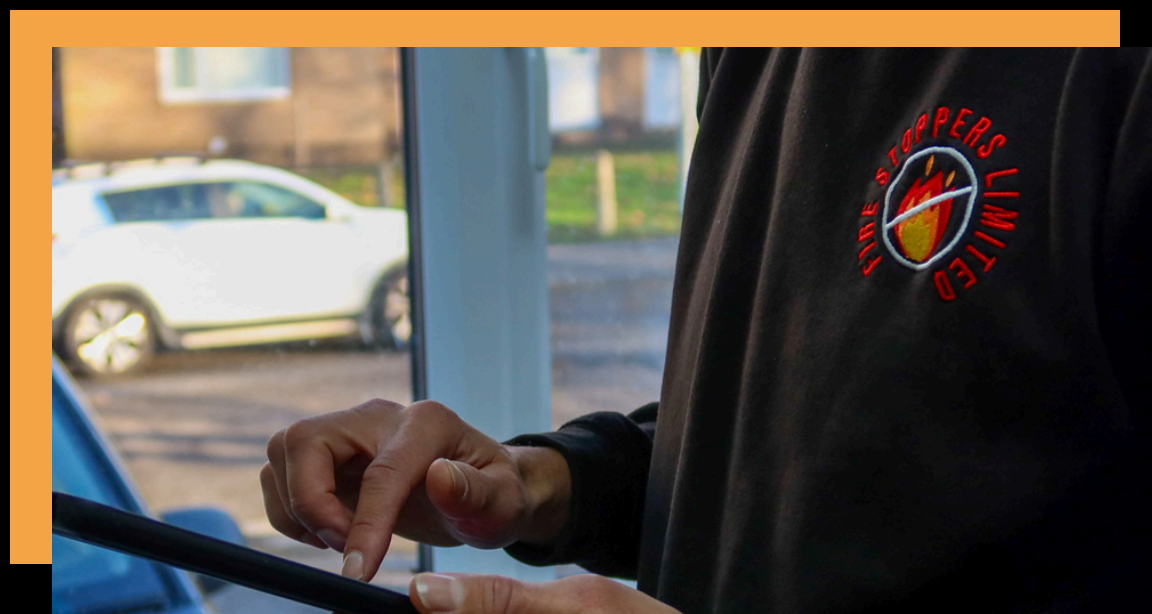

Residential landlords.

HMO Managers.

Construction sites.

Retail and industrial premises.

With over **15 years'** of experience, our **BAFE-accredited team** delivers full-spectrum fire protection with **zero hassle and total peace of mind**.

WHY CHOOSE A ONE-STOP SHOP PACKAGE?

02

Managing fire safety across your business doesn't have to be complicated. With a One-Stop Shop approach, you can make it **simple, efficient, and cost-effective**.

ONE VISIT, WHERE POSSIBLE

Combining multiple fire safety services into a single visit reduces disruption, saves time, and increases efficiency across your property or portfolio.

LOWER COSTS & COMPLEXITY

Streamlining services through one provider cuts down on repeated call-out charges, admin time, and the risk of miscommunication between contractors.

TRUSTED, CONSISTENT QUALITY

Relying on a trusted team ensures uniform standards, up-to-date compliance, and a deeper understanding of your specific setup.

EASY, STRESS-FREE SCHEDULING

With just one point of contact, scheduling is easier and compliance checks become straightforward and manageable.

OUR SERVICES

03

Our fully accredited engineers deliver **all** of the essential fire safety services your business needs, **in one visit**, where possible. No delays. No juggling contractors. Just complete protection, done right.

FIRE ALARM INSTALLATION & MAINTENANCE

We design, install, and maintain fire alarm systems tailored to your needs. Our BAFE-accredited engineers ensure compliance with **BS 5839-1:2017 standards**. Whether upgrading or installing new systems, we offer expert advice to provide the best solution for your property.

EMERGENCY LIGHTING

We install and maintain emergency lighting systems to ensure safe evacuation during power outages. Our services include both maintained and non-maintained fittings, all compliant with **BS 5266-1:2016 standards**. Regular inspections and testing ensure your system remains fully operational and compliant.

FIRE EXTINGUISHERS

We supply, install, and maintain fire extinguishers, including CO₂, dry powder, foam, water, and wet chemical models. Our services include **servicing, discharge testing, and environmentally responsible disposal of old units**. We also provide training to ensure your team can confidently use extinguishers in an emergency.

FIRE RISK ASSESSMENTS

Our comprehensive fire risk assessments identify potential hazards, evaluate risks, and ensure compliance with fire safety regulations. Led by **James Soley, a Tier 3 member of the IFSM Nationally Accredited Fire Risk Assessors Register**, our BAFE-accredited assessments provide actionable recommendations to improve safety and protect your property and occupants.

FIRE DOOR INSPECTIONS

Regular inspections are crucial to ensure fire doors function effectively, preventing the spread of fire and smoke. Our certified inspectors assess **door integrity, seals, hinges, and closers**, ensuring compliance with current regulations. We provide detailed reports and maintenance recommendations, helping you uphold safety standards and protect your property.

FIRE-STOPPING

We **seal gaps in walls, floors, and ceilings** to prevent the spread of fire, smoke, and gases. Our certified solutions use fire-resistant materials to maintain building integrity and ensure compliance with UK passive fire protection regulations.

FIRE SAFETY TRAINING

We offer tailored fire safety training, including **fire marshal, extinguisher use, and fire awareness courses**. Delivered by experts, our training ensures compliance and equips your team to handle emergencies confidently. Certificates are provided upon completion.

PAT TESTING

We provide comprehensive Portable Appliance Testing (PAT) to ensure the safety of your electrical equipment. Our qualified electricians conduct **thorough inspections and testing** to identify potential hazards, helping you comply with the **Electricity at Work Regulations** and maintain a safe environment. This is also available as part of our cost-effective One-Stop Package.

EVERYTHING COVERED. ONE VISIT.

Maximise efficiency and compliance with all your fire safety needs taken care of in one visit (*where possible*).

WHY CHOOSE FIRE STOPPERS?

06

At Fire Stoppers, we do more than tick compliance boxes, we deliver confidence, reliability, and peace of mind.

ONE-STOP SOLUTION

From fire risk assessments and alarm installations to extinguisher servicing, emergency lighting, fire door inspections, and more, we cover it all. One expert team. One visit, where possible. **Complete protection.**

SAVE TIME & MONEY

No more juggling multiple contractors or scheduling endless call-outs. Our efficient one-stop approach saves you valuable time and can cut **thousands** in annual maintenance costs.

TRUSTED EXPERTS

We're fully **BAFE-accredited** and **Tier 3 registered on the IFSM National Fire Risk Assessor Register**. Our engineers are highly trained, experienced, and ready to tailor the right fire safety solutions for your premises.

PERSONAL SERVICE, NATIONAL STANDARDS

We bring the professionalism of a national provider with the care and attention of a local team. Every customer matters, and our long-standing relationships prove it...

HEAR FROM OUR CUSTOMERS...

07

We've been using Fire Stoppers' one-stop service for over two and a half years now and the service we get is **very reliable**, call-out times are good and James is always there to help us.

**BARRIE, MANAGER OF THE
COTSWOLD HOTEL, NOTTINGHAM.**

We have worked with James for many years now. His knowledge of fire alarms and passion for fire safety is clear to see and would consider him **very professional**.
Highly recommend.

GARRY SLATER

CASE STUDY

SAGE THERAPY CENTRE

08

THE CLIENT

A new therapy centre approached us during their build to handle fire and security requirements, including fire alarms, intruder alarms, CCTV, extinguishers, and a fire risk assessment.

WHAT WE DID

We collaborated with their builder and electrician, providing drawings so cables could be installed early. Our one-stop engineer later completed the installation and commissioning in one visit, covering fire and intruder alarms, CCTV, extinguishers, and signage. We finished with a fire risk assessment and worked with building control to ensure compliance.

CLIENT SAVINGS

Thanks to our one-stop approach, the client saved approx. **£1,500 in install costs and £450 annually on maintenance**. Fewer contractors, less disruption, and one expert team made it possible.

“Fire Stoppers were very easy to deal with from start to finish. They helped us with the design of the fire alarm, extinguishers, fire risk assessment, intruder alarm and CCTV. I will be using the one-stop service package moving forward as the concept is a no brainer.

NATALIE CORPE

CASE STUDY

LITTLE HOUSE OF FUN

09

THE CLIENT

We were approached by the electrician working on a new nursery project to help design and install the fire alarm, emergency lighting, and extinguishers.

WHAT WE DID

Our team of one-stop engineers was able to handle all aspects of fire safety for the nursery in one go. From designing the fire alarm system to installing emergency lighting and extinguishers, we took care of every detail. In addition to the initial installation, we also provided ongoing servicing, including PAT testing, to ensure the systems remained fully operational and compliant with regulations.

CLIENT SAVINGS

We saved the client **£500 on installation costs** and an additional **£250 per year on maintenance** by consolidating services into a single visit.

James was very helpful in the fit-out stage of our first nursery. We had a tight budget and was surprised how far Fire Stoppers were prepared to go to keep us on budget. Working long hours to keep the project on time for opening. We were very pleased with the results.

PAUL - OWNER

WILL I RECEIVE ALL OF THE NECESSARY CERTIFICATION AFTER THE VISIT?

Yes, once our engineers have completed the services, you'll receive all relevant reports, certifications, and documentation to prove your compliance with UK fire safety regulations.

WHAT IF I ALREADY HAVE SOME SERVICES COVERED BY ANOTHER PROVIDER?

No problem. Our One-Stop Shop is **flexible**. We can work around existing arrangements and fill in any gaps to ensure full fire safety compliance.

CAN YOU HELP WITH NEW BUILD PROJECTS OR REFURBISHMENTS?

Definitely. We regularly work alongside builders, contractors, and electricians to install systems efficiently during construction or renovation, saving time and cost from the outset.

IS THERE A LONG-TERM CONTRACT INVOLVED?

No long-term commitments are required. You can book a one-off visit, or opt into a maintenance package for ongoing support and added savings.

DO YOU OFFER EMERGENCY CALL-OUTS?

Yes, we provide **24/7 emergency support** when needed, giving you peace of mind that expert help is just a phone call away.

HOW QUICKLY CAN I BOOK AN APPOINTMENT?

We aim to offer flexible appointment slots at short notice. Let us know your timeline and we'll do our best to fit you in at a time that works for you.

HOW DO I KNOW IF I'M DUE FOR A FIRE RISK ASSESSMENT OR SERVICING?

If you're unsure about your current compliance status, we can carry out an initial consultation to identify what's needed and help you plan ahead.

CAN YOU SERVICE MULTIPLE SITES OR PROPERTIES?

Yes! We regularly work with landlords, managing agents and multi-site businesses to streamline fire safety across all of their properties.

WHAT AREAS DO YOU COVER?

We're based in Nottingham but serve businesses and properties nationwide.

ONE TEAM. ONE VISIT. EVERYTHING SORTED. THAT'S THE POWER OF A ONE-STOP SHOP.
